

## Mahir Sajad

Kulgam, Jammu and Kashmir 192231

📞 9149944910 ✉️ mahirsajad786@gmail.com 🔗 [linkedin.com/in/mahir-sajad-4464b0260/](https://www.linkedin.com/in/mahir-sajad-4464b0260/) 🌐 <https://github.com/Mahir-msk>

## Internship/Training

### Training

June 2024 - July 2024

#### Board Infinity

- Successfully completed rigorous training in Data Structures and Algorithms (DSA) with a focus on scalability and efficiency optimization
- Developed a functional C++ library management system leveraging advanced data structures (binary search trees, linked lists, hash maps) for efficient book management operations.
- Gained hands-on experience in **algorithm optimization, competitive programming techniques, and real-world software development best practices**, enhancing problem-solving and coding proficiency.

## Projects

### JourneyX - Travel Guide Website

Since Jan 2025

- Designed and developed an interactive travel planning platform for destination exploration, route finding, and accommodation discovery
- Planning to integrate ML-powered route optimization into the platform, considering distance, time, and cost for efficient travel planning
- Future scope includes **backend development with dynamic user authentication, real-time booking options, and AI-driven itinerary generation.**
- Github Repository Link: <https://github.com/Mahir-msk/journeyx>

### Text Processing ML Model

June 2024 - July 2024

- Developed an intelligent text processing pipeline integrating TF-IDF, word embeddings (Word2Vec, GloVe, or BERT), and translation models for enhanced text analysis.
- Applied Natural Language Processing (NLP) techniques to improve document classification, keyword extraction, and semantic understanding
- Future scope includes fine-tuning transformer models (BERT, GPT) for context-aware text processing and sentiment analysis

## Certificates

### Mastering Machine Learning Certification

Since Dec 2024

Udemy

### Supervised Machine Learning

Since Jan 2025

Coursera

### Prompt Engineering For Chatgpt

Dec 2024

Vanderbilt University

## Technical Skills

**Languages** C++, Python, JavaScript

**Technologies/Frameworks:** Bootstrap, Git, GitHub, Ubuntu

**Skills:** Data Structures and Algorithms, Problem-Solving, Scripting JavaScript, Supervised learning ,Unsupervised Learning

**Tools and Libraries:** NumPy ,Pandas , OpenCV, Matplotlib

## Achievements

- Attained a prominent global ranking at 993th: Jan 2025  
Among 4k+ participants in Starters 151 Div4
- Secured 2nd rank in the Event: Incredible 8: Mar 2023  
Participated and ranked 2nd in the Event organized by LPU .

## Education

### Lovely Professional University Punjab

2022 – 2026

Computer Science and Engineering — CGPA: 7.7

Phagwara, Punjab

### Sir Syed Memorial

2021 – 2022

Higher Secondary School Certificate — Percentage: 88%

Srinagar, Jammu Kashmir

### New Convent School

2019 – 2020

Secondary School Certificate — Percentage: 85%

Srinagar, Jammu Kashmir
